3	Sign up	Create an account with a new email.	Confirmation email arrives. Link opens onboarding.	☐ P ☐ F
4	Sign in / out	Sign out, then sign in again.	Lands on Home. Data unchanged.	☐ P ☐ F
5	Reset password	Forgot password → email → set new password.	Can sign in with the new password.	☐ P ☐ F

2. Onboarding & Career Profile

#	Test	Steps	Expected result	Pass / Fail
6	Onboarding	Complete the goal-based onboarding (optionally import a résumé).	Career Profile is created from your answers.	☐ P ☐ F
7	Résumé import	Career → import a PDF or DOCX résumé.	Fields are extracted. Any conflicts are shown for you to choose.	☐ P ☐ F
8	Edit profile	Change goal, skills, locations, salary. Save and reload.	Changes persist.	☐ P ☐ F
9	Work history & contact	Add a role with bullets, education and phone/LinkedIn.	Saved and shown after a reload.	☐ P ☐ F
10	Remembered answers	Career → “Application answers Wonder remembers” → add or forget one.	The list updates. Items older than 30 days are marked to re-confirm.	☐ P ☐ F

3. Home

#	Test	Steps	Expected result	Pass / Fail
11	Today view	Open Home.	Shows real next actions and attention items only. No invented numbers.	☐ P ☐ F

4. Find jobs

#	Test	Steps	Expected result	Pass / Fail
12	Natural-language search	Jobs → type a search (or accept the prefilled goal) → Run.	Shows what it understood, then progress, then real results.	☐ P ☐ F
13	Source evidence	Open “See how Wonder worked”.	Per-source counts. Sources without keys show “Needs setup”.	☐ P ☐ F
14	Tabs & refine	Switch For You / All Jobs / Saved. Apply filters and sort.	Lists update correctly.	☐ P ☐ F
15	Empty state	Search for something with no results.	Empty state explains why. No fake jobs.	☐ P ☐ F

5. Decide

#	Test	Steps	Expected result	Pass / Fail
16	Job card	Read any job card.	Shows why it fits, what to consider, and the next step.	☐ P ☐ F
17	Job detail	Open a job. Check Overview, Why it fits, Company, Sources.	“Where this job was found” lists the sources.	☐ P ☐ F
18	Save	Save a job, then unsave it.	Appears in, then leaves, Saved.	☐ P ☐ F

#	Test	Steps	Expected result	Pass / Fail
19	Not for me	Mark a job "Not for me" with a reason.	Hidden from lists, with "why filtered" and Show anyway.	☐ P ☐ F
20	Compare	Select 2–4 jobs → Compare.	Side-by-side view. No declared winner.	☐ P ☐ F

6. Application Pack

#	Test	Steps	Expected result	Pass / Fail
21	Prepare	Job → Prepare application.	Application created. Pack opens.	☐ P ☐ F
22	Generate materials	Generate résumé, cover letter and answers.	Each is labelled AI-generated draft.	☐ P ☐ F
23	Edit & versions	Edit text. Generate again. Restore an older version.	Autosaves. Versions list. Restore works.	☐ P ☐ F
24	Missing info	Check the "Missing information" panel.	Lists only what your Career Profile lacks.	☐ P ☐ F
25	Download	Download résumé and cover letter (.docx).	Files open in Word.	☐ P ☐ F
26	Hand-off	Tick the review box → Continue to Employer.	Employer page opens. Status is Ready for review. Nothing is submitted.	☐ P ☐ F

7. Résumé Studio

#	Test	Steps	Expected result	Pass / Fail
27	Gallery	Résumé Studio → Templates.	8 templates render your own data. One is recommended, with reasons.	☐ P ☐ F
28	Filters & preview	Use filters. Open a preview. Change page and zoom.	Filters narrow the list. Preview matches the thumbnail.	☐ P ☐ F
29	Generate	Use a template → Generate.	Real stages shown. Validation passes, or explains what's missing.	☐ P ☐ F
30	Download	Download PDF and DOCX.	Both open. PDF matches the preview.	☐ P ☐ F
31	My resumes	Open My resumes → Preview a saved one.	Reopens exactly as generated, with its template version.	☐ P ☐ F
32	Job-specific résumé	From an Application Pack → "Choose a résumé template".	Résumé targeted to that job, facts reordered, nothing added.	☐ P ☐ F

8. Apply with Wonder

#	Test	Steps	Expected result	Pass / Fail
33	Entry	Open a job with a prepared résumé, then one without.	"Apply with Wonder" is enabled, then disabled with the reason.	☐ P ☐ F
34	Preflight	Click Apply with Wonder.	Checklist, destination, résumé choice and method cards.	☐ P ☐ F
35	Duplicate	Apply for a job you already submitted.	Duplicate warning with View application and Continue anyway.	☐ P ☐ F
36	Guide me	Choose Guide me → Start.	Copy buttons, downloads, pack zip and application link all work.	☐ P ☐ F
37	Install helper	Install from /extension. Open WonderJobs.	Helper popup shows Connected.	☐ P ☐ F
38	Helper fill	Choose the browser helper → Start on a real Greenhouse or Lever posting.	Employer page opens. Panel offers "Fill N fields". Fields fill from your profile.	☐ P ☐ F
39	Needs you	Check the Needs-you list in WonderJobs.	Work authorization, sponsorship and demographic questions are not filled.	☐ P ☐ F
40	AI draft	"Draft with Wonder" on an open question → edit → Use answer.	Labelled AI draft. Helper then offers to fill it.	☐ P ☐ F
41	Stop	Press Stop in the panel or in WonderJobs.	Filling stops. "Continue application" is offered.	☐ P ☐ F

#	Test	Steps	Expected result	Pass / Fail
42	Confirm submission	(Only if applying for real.) Submit on the employer site → “Yes, application submitted”.	Marked Submitted. Follow-up set. Visible in Applications.	☐ P ☐ F
43	Dashboard	Applications → Applying with Wonder.	Sessions grouped by what they need next.	☐ P ☐ F

9. Applications

#	Test	Steps	Expected result	Pass / Fail
44	Timeline & list	Applications → Timeline / List.	All applications with status and next action.	☐ P ☐ F
45	Status changes	Move an application through statuses.	Timeline events added. Undo available for final states.	☐ P ☐ F
46	Follow-ups	Add a follow-up. Mark it done.	Due date shows. Completes. Appears in Calendar.	☐ P ☐ F
47	Add application	Add → pick a saved job.	New application opens in the Pack.	☐ P ☐ F

10. Wonder & automation

#	Test	Steps	Expected result	Pass / Fail
48	Ask Wonder	Top bar → ask “what should I focus on today?”.	Answers from your real data, with links.	☐ P ☐ F
49	Automation level	Wonder → What Wonder can do → choose Help me / Work with me / Work independently / Keep watch.	Saved. Descriptions match the behaviour.	☐ P ☐ F
50	What Wonder can do	Set a capability to Off, then Ask.	Wonder respects it (e.g. Off hides the helper option).	☐ P ☐ F
51	Run	Wonder → new run. Pause, resume, stop, rerun.	Each control works. Evidence per stage.	☐ P ☐ F
52	Scheduled search	Create a schedule in plain language.	Schedule saved with its next run time. Runs daily via cron.	☐ P ☐ F

11. AI settings

#	Test	Steps	Expected result	Pass / Fail
53	Platform AI	Settings → AI.	Says which model writes drafts (or template drafts).	☐ P ☐ F
54	BYOK	Add your own provider key. Test. Remove.	Key shown masked. Drafts use it. Removal works.	☐ P ☐ F
55	Usage	Check the usage section after generating.	Calls, tokens and model listed.	☐ P ☐ F
